

# MASTER Chain® - corner and chain

**Minimum wear** • Ball bearing drive wheel

**Prevents penetration of moist and feed wastage** • Closed, strong box of metal - rubbersealed

**Durable** • Inner wheel of cast iron

**No clogging with feed** • The spokes in the inner corner wheel are designed to give less possible resistance

**Minimum wear on the system - easy mounting** • 20% lighter than other chains

**Reliable** • Unique ultimate stress: 1300 kg

**Durable** • Hardened and hot-galvanized

**Long life** • Pull on chain link - not on nylon discs

## CORNERS - HOT-GALVANIZED

No.	Description
86.205	38 mm corner for chain and cable systems
86.193	50 mm corner for chain and cable systems
86.187	60 mm corner for chain systems

## CORNERS - STAINLESS STEEL

No.	Description
86.201	38 mm corner for chain and cable systems
86.189	50 mm corner for chain and cable systems
86.184	60 mm corner for chain systems

## CHAIN

No.	Description
86.012	Bunch with 50 m for 38 mm system
86.015	Bunch with 50 m for 50 mm system
86.018	Bunch with 50 m for 60 mm system
86.029	Connector for chain
